Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by 20020047971 (971). For detail see office action dated 6/29/05.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-5, 14-17, 26-30, 37, 38-42, 50 and 51 are rejected under 35 U.S.C. 103(a) as being unpatentable over 791 in view of 20020080312 (312). For details see office action dated 6/29/05.

Claims 6-8, 18-21, 31-33 and 43-46 are rejected under 35 U.S.C. 103(a) as being unpatentable over 791 in view of 20020080312 (312) and further in view of 20020093618 (618). For details see office action dated 6/29/05.

Claims 9-11, 22-24, 34-36 and 47-49 are rejected under 35 U.S.C. 103(a) as being unpatentable over 791 in view of 20020080312 (312) and further in view of 5528400 (400). For details see office action dated 6/29/05.

Claims 13 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over 791. For details see office action dated 6/29/05.

Art Unit: 2871

Claims are rejected under 35 U.S.C. 103(a) as being unpatentable over 791 in view of 20020080312 (312). For details see office action dated 6/29/05

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Response to Arguments

Applicant's arguments filed 12/29/05 have been fully considered but they are not persuasive. Applicant's sole argument pivots the word "intrinsic" and that intrinsic has some special meaning different from the ordinary skill or the common dictionary meaning. In response, the specification gives no special meaning to the term "intrinsic fringe field". The spec merely recites "[t]he intrinsic fringe field of each associated pixel is used to create MVA profiles according to the present invention." Nothing in the specification, common dictionary meaning or common meaning by one of ordinary skill would led to meaning argued by applicant—that is, that the intrinsic fringe field only exists by applying an electric field between two substrates. In fact the word intrinsic means belonging essentially to nature or constitution of a thing. If there is an electric field created and 971 does create an electric, then it is an intrinsic electric field.
